Currently we are seeking a **full-time Engineering/Maintenance Technician** who will work at Bingham Memorial Hospital in Blackfoot, ID. This position is responsible for performing various routine maintenance assignments and assisting other Facilities Management personnel in the repair and maintenance of physical structures, equipment, and fixtures of the facility and grounds.

RESPONSIBILITIES: - ESSENTIAL FUNCTIONS:

- Performs related primary trade Essential Function work as per applicable trade Job Description (Painter, Boiler Room, Carpenter, Plumber, HVAC, Electrical, or General Maintenance). Such as:
 - Carpentry duties; install shelving, and repair windows, screens, blinds, and suspended ceilings
 - Electrical duties: switches, reset breakers, change bulbs and ballasts, other electrical duties as assigned
 - HVAC duties – check thermostats, hot and cold calls
 - Light plumbing repairs – change washers, valves and shutoffs
 - General maintenance service for facility personnel (assemble furniture and accessories, move items)
 - Generalized knowledge of the use of power tools and other equipment
 - Assist other trades as required in emergencies or overload situations, including snow removal, grounds keeping and other items as assigned.
 - Collaborate with supervisor and other Facilities Management personnel to solicit expertise of required crafts necessary to complete assignments
 - Report defective materials, faulty operation of equipment, and unusual matters to supervisor and appropriate personnel
 - Makes inspections of and files deficiency reports (to include work order requests) to correct problems for spaces, electrical mechanical equipment, control and systems to ensure safe and reliable operations at peak energy efficiency
- Work from work order system on wireless tablets and/or verbal instructions
- Prioritize urgency of work requests based on department procedures and notify supervisor of any problems or delays in projects
- Maintain work area and equipment in a safe, clean and orderly condition and follow standard and prescribed safety regulations.
 - Report any violation of OSHA Regulations to supervisor.
 - Exercises and ensures that others follow safe working practices (even if this requires wearing a hard hat, safety glasses, cap, gown, proper footwear, or other safety apparel)
- Respond to all facility emergency codes.
- Attend facility-sponsored training in Blood Borne Pathogens, Fire Safety, Right-To-Know, and others as required
- May be required to drive personal or facility owned vehicles for business purposes. If so, drivers will be subject to an initial driving record review (for currency of licensure as well as violations) and periodic reviews thereafter.
- Handle multiple priorities and make sound decisions under pressure
- Work alone effectively, managing anger/fear/hostility and/or stress appropriately

- Demonstrates respect and regard for the dignity of all patients, families, visitors and fellow employees to ensure a professional, responsible and courteous environment
- Promotes effective working relations and works effectively as part of a department/unit team inter and intra departmentally to facilitate the department's/unit's ability to meet its goals and objectives.
- May accompany insurance, federal, state or local authorities inspecting buildings or mechanical systems
- Is eligible for and performs on call status
- Readily accepts changes in assignment

POSITION REQUIREMENTS:

- High school diploma or general education degree
- 2 years commercial, industrial or healthcare maintenance experience (5 years preferred)
- Current driver's license and clean driving record
- Ability to effectively communicate and collaborate with facility personnel
- Basic computer data entry skills
- Some knowledge and skill in electrical, plumbing, mechanical and carpentry
