Job Description:

The successful candidate must be an RN who has demonstrated clinical and managerial experience. Prior experience within a Medicare certified home health agency is a plus. Provides services requiring nursing skills in accordance with the plan of care. Develops and coordinates the plan of care and provides case management.

General Responsibilities:

- Provides the initial all system nursing assessment prior to the provision of care
- Initiates the plan of care and necessary revisions including obtaining written physician orders for changes.
- Provides care and services in accordance with the plan of care.
- Supervision, direction, and training of LPN, and CNAs.
- Performs assessment/data collection in an on-going systematic manner, focusing on physiologic, psychosocial, cultural, spiritual and cognitive status; also nutrition, pain, patient/family education, family involvement and patient advocacy.
- Provides ongoing periodic all system assessment of the patient and the patient's equipment needs.
- Initiates preventative and rehabilitative nursing procedure (Home Health).
- Initiates timely discharges based on goals.
- Educates and instructs the patient, patient's family or other staff as required.
- Counsels the patient and family in meeting nursing and related needs.
- Provides nursing care through all phases of care taking into consideration age and developmental needs.
- Provides accurate and timely documentation consistent with the plan of care.
- Timely documentation and Communication: Documents all care, interventions and care coordination per law, regulation and agency policy.
- Participate in interdisciplinary patient care conferences each week and maintains ongoing communication with all disciplines involved in patient plan of care.
- Notifies the patient's attending MD, and other professional persons and responsible staff of significant changes in the patient's condition in a timely manner.
- Assists in coordinating all services provided.
