

# Practical Nursing

---

Program application for students that have completed pre-requisites or are in their last semester of pre-requisites in the spring 2016 semester.

**Please turn this packet in to the HCT office, #6105  
During the week of  
Monday, March 7th – Friday, March 11th 2016**

For more information please call 535-5302

# LPN Program Application

---

Thank you for your interest in the EITC Practical Nursing Program. We urge you to recognize the commitment that is essential if one is to be successful in this demanding discipline. Prior to making application to the program, individuals should give careful consideration to the mental and physical demands of the program and the pressures involved in undertaking the responsibilities of being a nursing student.

EITC offers limited entry into the (PN.ITC) Practical Nursing Program. You must be admitted to Eastern Idaho Technical College as a certificate/degree seeking student prior to being eligible to submit the PN application packet. Details are outlined below.

Completion of all admission requirements does not ensure acceptance into the professional program once application is submitted. A limited number of applicants are accepted into the program twice each year, fall and spring.

## **Program**

EITC's practical nursing program leads to an Intermediate Technical Certificate. EITC offers a competency based nursing program that combines nursing theory and clinical experience. The program enables the graduates to practice in today's dynamic healthcare environment. Upon completion of the program, graduates are eligible to take the national examination (NCLEX-PN) for licensure as a Licensed Practical Nurse.

## **Professional Program Entrance Application Deadlines & Requirements**

Begin your application process as early as possible so that you have ample time to complete all of the requirements. Be sure to meet with your advisor each semester, where questions can be answered and individual assistance can be provided. Meeting the minimum criteria for admission does not guarantee admission into the programs.

- Packets will only be accepted during the first full week of every March.
- **All Health Care packets will only be accepted during this 1 week period.**
- Program coordinators will no longer be meeting with students to review packets before packet submissions. Part of the packet process is to identify if applicants can thoroughly follow directions and meet deadlines.
- Turn packets in to the Health Professions Division office, Room #6105.
- A minimum of 60% on the TEAS V exam. Copy of results turned in to The Healthcare Admissions Counselor in Student Services.
- Candidates for admission are selected based on available space and seniority date assigned by the Healthcare Admissions Counselor.
- Those that have met entrance requirements, submit application, and are not admitted, will be placed on a waiting list, which may require applicants to wait several semesters before being admitted.
- Please notify Student Services **and** the Health Professions division office of any contact information changes.

## LPN Program Application

Health Professions Program Packet checklist for applicants				
Late & Incomplete packets will NOT be accepted for review.				
ALL Immunizations MUST BE finished before turning in your packet.				
Student Name			Office Use Only:	
			Entry Date:	Packet #
Immunization or Titer	Date Given		Colleague ID #	
			Eligible:	
MMR #1		Before packet submission	Yes	No
MMR #2		Before packet submission	<b>Packet Review Date &amp; Comments:</b>	
Or MMR Titer		Before packet submission		
Hep B #1		Before packet submission		
Hep B #2		Before packet submission		
Hep B #3		Before packet submission		
Or Hep B Titer				
Varicella #1		Before packet submission		
Varicella #2		Before packet submission		
Or Varicella titer		Before packet submission		
Tdap - Tetanus		Within 10 yrs prior to packet submission		
<b><u>Other</u></b>	<b><u>Included</u></b>			
IRIS Report		To be included with packet		
Copy of current American Heart Association BLS for Health Care Providers CARD		To be included with packet. EITC does offer these courses on a monthly basis		
TB (PPD) Skin test Results		To be included with packet		
Completed Physical Exam		To be included with packet		
Drug & Alcohol screen		To be done during first 3 weeks of school-cost \$40 approx. We will notify you of testing date		
C.N.A. License		Copy of a current CNA certificate or completion of HCT 118 with initial certification.		
Color Photo of self		To be included with packet		
Background Check-official & completed		To be completed in January prior to turning in packet.

## Please Carefully Read and Sign the Following:

### **Completion of Program Pre-requisite Requirements**

I understand that I am responsible for my own education. I certify that I have completed the required Practical Nursing Program pre-requisite courses with a "C" or better, or will, at the end of the current semester successfully complete them with a "C" or better. Should my transcripts or other information not substantiate these pre-requisites, I will not be accepted into the program or I will be exited from the program, until such pre-requisites are complete.

### **Acknowledgement of Program Requirements for Personal Effort and Commitment**

The nature of the Eastern Idaho Technical College nursing program, as with most nursing programs, require a substantial time commitment to fulfill the intensive requirements of the program in the classroom, nursing clinical laboratory, and clinical settings. Student success in the nursing program is dependent upon the creation and maintenance of a collaborative, working partnership between students and faculty. The nursing program faculty recognizes its responsibility as facilitators of your learning and is committed to helping you succeed in the program. However, it is important that you are aware of the responsibilities you will hold for your own learning while in the nursing program. As part of your application to the program, please read the following. Your signature on this application is an acknowledgement of your understanding of the expectations of the program.

1. There is a minimal study expectation of two hours of study per week for each credit enrolled. Most students spend more time than the minimal study expectation.
2. Although we hold an appreciation for your possible need to work to support yourself and/or a family, most students find it extremely difficult to work and still achieve the grades you need to maintain.
3. You will be exposed to in-depth, comprehensive nursing concepts and principles that may require more effort on your part to learn and understand.
4. You are expected to be prepared for class, lab, and clinical. This may include extensive reading, completion of care plans, practice in the lab, and other assignments prior to your attendance.
5. Most exams given in nursing courses are structured similarly to the nurse licensing exam. This means that most of the items on the exams are application, analysis, and synthesis type questions rather than simple knowledge and recall. These questions require a higher-order of thinking to answer correctly.
6. You may find the nursing program very different and more difficult than your past educational experiences. The nursing program is designed this way to facilitate the quality of the program, prepare you to pass your licensing exam, and ensure you become a safe and competent nurse.

### **Statement on Technical Standards for Nursing Programs at EITC**

Certain functional abilities are essential for the delivery of safe, effective nursing care. These abilities are essential in the sense that they constitute core components of nursing practice, and there is a high probability that negative consequences will result for patients/clients under the care of nurses who fail to demonstrate these abilities. Programs preparing students for the practice of nursing must attend to these essential functional abilities in the education and evaluation of students.

**Students with disabilities who think they may require accommodation in meeting the Technical Standards should contact Disability Resources and Services Coordinator, Julie McMurtery, of EITC at 535-5468. Students should seek accommodations advising as soon as possible after admission to the Nursing Program so that a plan can be in place at the beginning of the program. Applicants seeking admission into the program who may have questions about the technical standards and appropriate reasonable accommodations are invited to discuss their questions with the Coordinator. Reasonable accommodation will be directed toward providing an equal educational opportunity for students with disabilities while adhering to the standards of nursing practice for all students.**

# LPN Program Application

---

The practice of Nursing requires the following functional abilities with or without reasonable accommodations:

**Visual acuity** must be sufficient to assess patients and their environments and to implement the nursing care plans that are developed from such assessments. Examples of relevant activities but not limited to:

- Detect changes in skin color or condition
- Collect data from recording equipment and measurement devices used in patient care
- Detect a fire in a patient area and initiate emergency action.
- Draw up the correct quantity of medication into a syringe

**Hearing ability** must be sufficient to assess patients and their environments and to implement the nursing care plans that are developed from such assessments. Examples of relevant activities but not limited to:

- Detect sounds related to bodily functions using a stethoscope
- Detect audible alarms within the frequency and volume ranges of the sounds generated by mechanical systems that monitor bodily functions
- Communicate clearly in telephone conversations
- Communicate effectively with patients and with other members of the healthcare team

**Olfactory ability** must be sufficient to assess patients and to implement the nursing care plans that are developed from such assessments. Examples of relevant activities but not limited to:

- Detect foul odors of bodily fluids or spoiled foods
- Detect smoke from burning materials

**Tactile ability** must be sufficient to assess patients and to implement the nursing care plans that are developed from such assessments. Examples of relevant activities but not limited to:

- Detect changes in skin temperature
- Detect unsafe temperature levels in heat-producing devices used in patient care
- Detect anatomical abnormalities, such as subcutaneous creptitus, edema, or infiltrated intravenous fluid

**Strength and mobility** must be sufficient to perform patient care activities and emergency procedures. Examples of relevant activities but not limited to:

- Safely transfer patients in and out of bed and assist them with ambulation using appropriate assistive devices
- Safely control fall of a patient, by slowly lowering the patient
- Turn and position patients as needed to prevent complications due to bed rest
- Hang intravenous bags at the appropriate level
- Accurately read the volumes in body fluid collection devices hung below bed level
- Perform cardiopulmonary resuscitation

**Fine motor skills** must be sufficient to perform psychomotor skills integral to patient care. Examples of relevant activities but not limited to:

- Safely dispose of needles in sharps containers
- Accurately place and maintain position of stethoscope for detecting sounds of bodily functions
- Manipulate small equipment and containers, such as syringes, vials, ampules, and medication packages, to administer medications

**Physical endurance** must be sufficient to complete assigned periods of clinical practice.

**Ability to speak, comprehend, read, and write English** at a level that meets the need for accurate, clear, and effective communication.

**Emotional stability** to function effectively under stress, to adapt to changing situations, and to follow through on assigned patient care responsibilities.

**Cognitive ability** to collect, analyze, and integrate information and knowledge to make clinical judgments and management decisions that promote positive patient outcomes.

I hereby certify that the information contained in this application is true and complete to the best of my knowledge. I understand that any misinterpretation or falsification of information is cause for denial of admission or expulsion from the college. I acknowledge that I have read and understand the above statements and if I am accepted into Eastern Idaho Technical College program, I agree to organize my time and personal affairs in order to meet the commitments necessary to succeed. I understand that illegal use, possession, and/or misuse of drugs are reasons for immediate dismissal from the nursing program. I understand that any felony and misdemeanor convictions may prevent me from obtaining a nursing license.

# LPN Program Application

---

## CPR

Submit a current “Official” American Heart Association BLS for Healthcare Providers card. This is the only type of CPR card we accept. You need to maintain current certifications throughout the entire program

## TB (PPD) Skin Testing

Submit negative skin test results from within the past year. This will need to be done yearly while in the nursing program. If you have a history of a positive TB (PPD) test you will need to submit a copy of the results of a chest x-ray taken within the last 12 months.

## Drug & Alcohol Testing

Substances tested prior to placement at clinical are at minimum: **alcohol, amphetamines, barbiturates, benzodiazepines, opiates, marijuana, methadone, and cocaine.**

Students are required to undergo a random drug and alcohol test which will be done sometime within the first 3 weeks of school at a cost of approximately \$40 per student. Students can also be drug/alcohol tested randomly upon reasonable suspicion of use while in clinical, lab or the classroom. All positive results will be reviewed by faculty and clinical sites and may result in additional testing at the student’s expense.

## BACKGROUND CHECK

**Criminal background checks** are a requirement of the Joint Commission on Accreditation of Healthcare Organizations (JCAHO). Criminal background checks are necessary to meet clinical practicum site requirements during Eastern Idaho Technological Colleges’ (EITC) Health Professions programs. The Background Checks are double checked with an Idaho Repository check. These are required yearly.

Backgroundchecks.com is the only approved company that meets HCA requirements.

To register for the background check, print off the instructions from the EITC website along with this packet.

These instructions are available on the EITC website – click Programs of Study, then Health Professions – look on the right side of screen for *HCA Background Check Instructions*.

Any student with a felony conviction within the past seven years will not be admitted to the nursing program. Convictions greater than seven years will be reviewed on a case by case basis in accordance to clinical site policy.

Individuals who have been convicted of a misdemeanor related to but not limited to battery, assault, substance/alcohol abuse, or theft within the last 2 years will not be admitted to the nursing program. Any misdemeanor convictions greater than 2 years will be evaluated on a case by case basis taking into consideration the type of misdemeanor and repetitive offenses. EITC Nursing program will utilize the Background Check, Idaho Repository and clinical institution standards to evaluate these convictions. Students must meet all standards required by EITC and clinical institutions to be admitted and to remain in the nursing program.

Enrolled students are required to disclose any new misdemeanor or felony convictions, other than minor traffic violations while in the nursing program. These new charges must be reported within

# LPN Program Application

---

five business days of occurrence to the Nursing Administrator and may result in dismissal from the program.

## **Notice Concerning Board of Practical Nursing Licensure**

Prior to obtaining a license to practice as a Licensed Practical Nurse, all graduates **must report any/all felony and misdemeanor convictions that have ever occurred along with submission of fingerprints.** The Board of Nursing may deny licensure based on prior convictions.

**You will need to print out your official Background Report results and provide a copy with your completed application packet.**

**If the criminal background check returns with anything it will be reviewed by EITC faculty and clinical site.**

---

## **IMMUNIZATION RECORDS**

Note: The Influenza Vaccination will be due in the October. This is required by clinical sites.

Read and print the following enrollment form. You will need to provide the records that you currently have to Eastern Idaho Public Health Department. If you are not obtaining immunizations at EIPH, you will be charged a **\$10.00 fee** to complete your IRIS. Your records will be uploaded to the database. Once the records are complete, you may request a printout of your records.

**A copy of your IRIS record must be included in your packet (immunization card with not be accepted).**

You may drop off your records, along with the enrollment form, and a check for \$10.00 to:

**EIPH  
1250 Hollipark Drive  
Idaho Falls, Idaho 83401  
533-3235**

Please identify yourself as an EITC student.

**Do not wait until the last minute to do this. Eastern Idaho Public Health is not obligated to provide you with this information at your convenience.**

**Note: Titers are now able to be filed on the IRIS form. You can have them drawn at Express lab or your family doctor and submit a copy of the results demonstrating immunity.**

Express Lab  
Washington Pkwy  
Idaho Falls, ID 83404  
(208) 529-8330

# LPN Program Application

Signing the statement below will allow the health care provider who immunizes me or my child, or appropriate personnel at my child's school or child care, to submit information regarding immunizations and me or my child to the voluntary Idaho Immunization Reminder Information System (IRIS). This information will be limited to identifying information (such as name and date of birth), immunization information (such as dates and types of immunizations), and location information (such as my correct address). To make sure that correct immunizations are provided, or to verify that I or my child have received immunizations, the information entered into IRIS relating to me or my child may be made available and redisclosed to health care providers, child care providers, or schools.

My consent permits my child's or my own **enrollment** in the statewide immunization registry and disclosure of the information relating to me or my child to my or my child's health care providers, my child's child care provider, or my child's school without further consent. I may be asked for information that will help ensure records are accurate and will not be confused with another person's.

My consent also will allow for the **transfer** and entry of my or my child's previous immunization records into the statewide electronic registry.

I give permission to **enroll** me or my child and to **transfer** my or my child's immunization records into the **Idaho Immunization Reminder Information System (IRIS)** to ensure that this vaccination record is available to me, my or my child's health care providers, child care providers, and schools. I understand I may be asked for information that will help ensure my or my child's records are accurate and will not be confused with another person's records, such as: mother's maiden name, gender, and child's eligibility for free vaccine. I authorize inclusion of all information into IRIS and redisclosure of this information from IRIS to authorized users.
